DETAILED ACTION

Notice to Applicant

1. This communication is in response to the application filed 24 April 2001 and the Preliminary Amendment filed 14 April 2003. Claim 1 has been cancelled. Claims 2-21 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-13, drawn to creating an electronic order, classified in class 705, subclass 26.
 - II. Claims 14-21, drawn to determining drug dosages, classified in class 705, subclass 2.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I has separate utility such as arrangement which enables a purchaser to inspect or select from a plurality of different items, or effect a purchase of one or more items, and Invention II has separate utility such as health care management or delivery. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 3626

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
